

# Swallowtail Jig

## Fiddlers:

This is a great tune for learning jig bowing (down down up down down up). It's what gives Irish tunes that lilt feeling - like galloping. Take it slow and once you learn it with this song you'll be able to use it on countless others.

Slur beats 1 & 2  
and 3 & 4  
on a down bow

First try jig bowing in the air to get the feel. Then take the first measure very slowly. For this song you'll need to cover both the D and A strings with your first finger to play the 1st and 2nd measures (and again on the next line).
